

## CONTENTS

**Volume 36 Number 1**

**January 2006**

64-bit versus 32-bit Virtual Machines for Java K. Venstermans, L. Eeckhout and K. De Bosschere .....	1
Automating the analysis of design component contracts J. Dong, P. S. C. Alencar and D. D. Cowan .....	27
Designing generic algorithms for operations research B. Bachelet, A. Mahul and L. Yon .....	73
Evolutionary test data generation: a comparison of fitness functions A. Watkins and E. M. Hufnagel .....	95

**Volume 36 Number 2**

**February 2006**

Customizing the swarm storage system using agents J. H. Hartman, S. Baker and I. Murdock .....	117
Fast dynamic casting M. Gibbs and B. Stroustrup .....	139
An architectural pattern for designing component-based application frameworks D. Parsons, A. Rashid, A. Telea and A. Speck .....	157
A layered architecture for flexible Web service invocation V. De Antonellis, M. Melchiori, L. De Santis, M. Mecella, E. Mussi, B. Pernici and P. Plebani .....	191

**Volume 36 Number 3**

**March 2006**

STLlint: lifting static checking from languages to libraries D. Gregor and S. Schupp .....	225
Application invariants: Design by Contract augmented with deployment correctness logic A. Savidis .....	255
Applying a framework for the improvement of software process maturity G. Canfora, F. García, M. Piattini, F. Ruiz and C. A. Visaggio .....	283

Matching statistics: efficient computation and a new practical algorithm for the multiple common substring problem M. G. Maaß .....	305
--	-----

**Volume 36 Number 4****10 April 2006**

Model-centric software architecture reconstruction C. Stoermer, A. Rowe, L. O'Brien and C. Verhoef .....	333
Raiding the Noosphere: the open development of networked RAID support for the Linux kernel P. T. Breuer and M. García Valls .....	365
An instruction for direct interpretation of LZ77-compressed programs C. W. Fraser .....	397
Effective pattern matching of source code using abstract syntax patterns D. C. Atkinson and W. G. Griswold .....	413

**Volume 36 Number 5****25 April 2006**

Signals, timers, and continuations for multithreaded user-level protocols J. C. Gomez, J. R. Ramos and V. Rego .....	449
The design of a Virtual Library of Emblem Books J. R. Paramá, Á. S. Places, N. R. Brisaboa and M. R. Penabad .....	473
Arcademis: a framework for object-oriented communication middleware development F. M. Q. Pereira, M. T. O. Valente, R. S. Bigonha and M. A. S. Bigonha .....	495
Generating content and display of library catalogue cards using XML technology J. Vidaković and M. Racković .....	513
Performance of hardcoded finite automata E. Ketcha Ngassam, D. G. Kourie and B. W. Watson .....	525
To secure XML documents with the extension function of XSLT T.-K. Chang and G.-H. Hwang .....	539

**Volume 36 Number 6****May 2006**

Scaling J2EE™ application servers with the Multi-tasking Virtual Machine M. Jordan, L. Daynès, M. Jarzab, C. Bryce and G. Czajkowski .....	557
Double dispatch in C++ L. Bettini, S. Capecchi and B. Venneri .....	581

Portable and accurate sampling profiling for Java W. Binder .....	615
Drawing rooted trees in linear time C. Buchheim, M. Jünger and S. Leipert .....	651

**Volume 36 Number 7****June 2006**

Software experience when using ontologies in a multi-agent system for automated planning and scheduling E. J. González, A. F. Hamilton, L. Moreno, R. L. Marichal and V. Muñoz .....	667
A tool for converting Linux device drivers into Solaris compatible binaries S. McIlwain and B. P. Miller .....	689
Distribution and persistence as aspects S. Soares, P. Borba and E. Laureano .....	711
Experiment on and analysis of mobile content transformation using XSLT N. Ishikawa, H. Suzuki, H. Ueno and T. Gotoh .....	761

**Volume 36 Number 8****10 July 2006**

PTDOM: a schema-aware XML database system for MPEG-7 media descriptions U. Westermann and W. Klas .....	785
Understanding the behavior of compiler optimizations H. Lee, D. von Dincklage, A. Diwan and J. E. B. Moss .....	835
ATLAS: a framework to provide multiuser and distributed t-learning services over MHP J. J. Pazos-Arias, M. López-Nores, J. García-Duque, A. Gil-Solla, M. Ramos-Cabrer, Y. Blanco-Fernández, R. P. Díaz-Redondo and A. Fernández-Vilas .....	845
A modular and adaptive framework for large scale video indexing and content-based retrieval: the SIRSALE system A. Mostefaoui .....	871

**Volume 36 Number 9****25 July 2006****COMPSAC 2004 Papers**

Editorial W. E. Wong and K. Kanoun .....	891
Support for situation awareness in trustworthy ubiquitous computing application software S. S. Yau, D. Huang, H. Gong and Y. Yao .....	893

An approach to feature-based software construction for enhancing maintainability J. Kim and D. H. Bae .....	923
Building high-quality software fault predictors A. P. Nikora and J. C. Munson .....	949

### Regular Paper

Binary rewriting and call interception for efficient runtime protection against buffer overflows K. Avijit, P. Gupta and D. Gupta .....	971
--	-----

### Volume 36 Number 10

August 2006

Validating feature-based specifications K. J. Turner .....	999
Design and implementation of an enhanced CORBA property service M. Aleksy, A. Korthaus and N. Schmoigl .....	1029
Declarative generation of synthetic XML data D. Barbosa and A. O. Mendelzon .....	1051
Compressing heap data for improved memory performance Y. Zhang and R. Gupta .....	1081

### Volume 36 Numbers 11-12

September-October 2006

### Special Issue

#### Experiences with Auto-adaptive and Reconfigurable Systems

Editorial: System Level Adaptation M. Aksit and T. Elrad .....	1113
Dynamic service adaptation R. Hirschfeld and K. Kawamura .....	1115
Adapting workload distribution on software DSM clusters Y.-T. Liu, T.-Y. Liang and C.-K. Shieh .....	1133
MetaSockets: design and operation of runtime reconfigurable communication services S. M. Sadjadi, P. K. McKinley, E. P. Kasten and Z. Zhou .....	1157
Self-tuning caching: the Universal Caching algorithm G. Santhanakrishnan, A. Amer and P. K. Chrysanthis .....	1179
Controlling quality-of-service in distributed real-time and embedded systems via adaptive middleware R. E. Schantz, J. P. Loyall, C. Rodrigues and D. C. Schmidt .....	1189

Validation approach for neural network-based online adaptive systems S. Yerramalla, E. Fuller and B. Cukic .....	1209
Editorial: Application Level Adaptation	
M. Aksit and T. Elrad .....	1227
ISAMadapt: abstractions and tools for designing general-purpose pervasive applications	
I. Augustin, A. C. Yamin, L. C. da Silva, R. A. Real, G. Frainer and C. F. R. Geyer ....	1231
The FRACTAL component model and its support in Java	
E. Bruneton, T. Coupaye, M. Leclercq, V. Quéma and J.-B. Stefani .....	1257
End-user programming of reconfigurable systems	
R. Hague and P. Robinson .....	1285
Using context and preferences to implement self-adapting pervasive computing applications	
K. Henriksen, J. Indulska and A. Rakotonirainy .....	1307
An architecture for adaptive intrusion-tolerant applications	
P. Pal, P. Rubel, M. Atighetchi, F. Webber, W. H. Sanders, M. Seri, H. Ramasamy, J. Lyons, T. Courtney, A. Agbaria, M. Cukier, J. Gossett and I. Keidar .....	1331
MCL: a MobiGATE coordination language for highly adaptive and reconfigurable mobile middleware	
Y. Zheng, A. T. S. Chan and G. Ngai .....	1355

**Volume 36 Number 13****10 November 2006**

A taxonomy of market-based resource management systems for utility-driven cluster computing	
C. S. Yeo and R. Buyya .....	1381
MHP-OSGi convergence: a new model for open residential gateways	
A. F. Vilas, R. P. D. Redondo, M. R. Cabrer, J. J. P. Arias, A. G. Solla, J. G. Duque, M. L. Nores and Y. B. Fernández .....	1421
Finding and documenting the specialization interface of an application framework	
J. Hautamäki and K. Koskimies .....	1443
Scalable peer-to-peer networking architecture: DIVINE	
W. H.-L. Wong and J. K.-Y. Ng .....	1467
Experiences with component-oriented technologies in nuclear power plant simulators	
M. Díaz, D. Garrido, S. Romero, B. Rubio, E. Soler and J. M. Troya .....	1489

**Volume 36 Number 14****25 November 2006**

Establishing structural testing criteria for Java bytecode	
A. M. R. Vincenzi, M. E. Delamaro, J. C. Maldonado and W. E. Wong .....	1513

Qualitative and quantitative analysis and comparison of Java distributed architectures I. Rozman, M. B. Juric, I. Golob and M. Hericko .....	1543
The application kernel approach—a novel approach for adding SMP support to uniprocessor operating systems S. Kågström, H. Grahn and L. Lundberg .....	1563
Bio-Broker: a tool for integration of biological data sources and data analysis tools J. F. Aldana, M. Roldán-Castro, I. Navas, M. M. Roldán-García, M. Hidalgo-Conde and O. Trelles .....	1585
Cobol minefield detection N. Veerman and E.-J. Verhoeven .....	1605

**Volume 36 Number 15****December 2006**

Platform-independent code conversion within the C++ locale framework L. Engebretsen .....	1643
Partial dead code elimination on predicated code regions J. Xue, Q. Cai and L. Gao .....	1655
Decoding prefix codes M. Liddell and A. Moffat .....	1687
Mobile-C: a mobile agent platform for mobile C/C++ agents B. Chen, H. H. Cheng and J. Palen .....	1711
Volume Contents .....	iii
